

Sohrab Taee

Senior Software Engineer
Amsterdam, Netherlands

I'm a software engineer with **8+ years** of experience. For most of my career, I've been focused on the **front-end**, plus a few years of WordPress development.

I've worked as a team-lead, a consultant, a developer in agile-based product teams, and a solo developer. I've been also involved in interviewing and mentoring developers.

My technical workflow consists of using Git, writing well-tested maintainable code, and conducting code reviews.

I also have a keen eye for UX.

I do my best to have a balance in every aspect of my career and personal life. I'm a constant learner and I value personal development.

I enjoy working in **transparent, trust-based, and feedback-oriented** environments.

I love traveling, music, and technology.

🎓 EDUCATION

Bachelor of Science (B.S.),
Computer Hardware
Engineering

Azad University (IAU)
2005 - 2010

👛 EXPERIENCES

Front-end Developer Consultant

Passionate People - Amsterdam, The Netherlands

February 2021 - Present

Passionate People is a JavaScript consultancy in the Netherlands. Here is a list of the clients I've worked for:

VodafoneZiggo (February 2021 - Present)

I work at the B2B team of Ziggo. Ziggo is the largest provider of internet, cable TV, and telephone in the Netherlands.

Responsibilities and Achievements

- Worked in an Agile team using Scrum within the Spotify model.
- Worked in cross-functional teams closely with designers, developers, and product owners.
- Helped with onboarding new developers.
- Worked on migrating components to be compatible with new APIs.
- Developed and maintained components for AEM.
- Developed and maintained unit tests, e2e tests, and visual regression tests.

Tools and Technologies

- HTML, CSS, SCSS, BEM
- JavaScript, ES6+, Vue.js
- AEM (Adobe Experience Manager CMS), HTL, CRXDE
- Jasmine, Karma, Cypress, Backstop
- Git, Bitbucket, GitLab, Docker

Senior Web Engineer

fromAtoB - Berlin, Germany

November 2019 - February 2021

fromAtoB was an online travel agency specializing in intermodal transportation. Unfortunately, the company shut down due to the Covid-19 crisis.

Responsibilities and Achievements

- Worked in Agile teams mainly using Scrum and Kanban within the Spotify model.
- Worked in cross-functional teams closely with designers, developers, QA engineers, and product owners.
- Conducted A/B testing using Google Optimize and Google Analytics.
- Worked on migrating the user account area on our website from a server-rendered Ruby on Rails app to a Vue.js powered SPA.
- Developed the components required for our new design system and integrated them into our current web apps.

LANGUAGES

- English (IELTS 7.5)
- Persian (native)
