

Sohrab Taee

Senior Software Engineer

I'm a software engineer with **8+ years** of experience. Most of my career has been focused on **front-end** and WordPress development.

I've worked as a team-lead, a consultant, a developer in agile-based product teams, and a solo developer.

I've been also involved in recruiting and mentoring developers.

My technical workflow consists of using Git, writing well-tested maintainable code, and conducting code reviews. I also have a keen eye for UX.

I do my best to have a balance in every aspect of my job and personal life.

I'm a constant learner and I value personal development.

I enjoy working in non-hierarchical, transparent, and trust-based environments.

I love traveling, music, and technology.
