Sohrab Taee

Front-end Developer
WordPress Developer

I've been working as a front-end developer since 2012. I have been the leading front-end developer in a few large-scale projects in the Tourism industry of Iran, and have accomplished many small projects using WordPress.

I've also worked as a front-end consultant at Vaadin in Finland. I was involved with customer projects mostly using Web Components, PWAs, and hybrid mobile apps.

Currently, I'm back in the tourism industry as a senior web engineer at fromAtoB in Berlin, Germany.

I highly value personal development and enjoy working in non-hierarchical, trust-based environments. I love learning new skills, traveling, and music.
