Sohrab Taee

Senior Software Engineer
Amsterdam, Netherlands

I'm a software engineer with **10+ years** of experience. For most of my career, I've been focused on **web development**.

I've worked as a team-lead, a consultant, a developer in agile-based product teams, and a solo developer. I've been also involved in interviewing and mentoring developers.

My technical workflow consists of using Git, writing well-tested maintainable code, and conducting code reviews.
I also have a keen eye for UX.

I do my best to have a balance in every aspect of my career and personal life. I'm a constant learner and I value personal development.
I enjoy working in **transparent**, **trust-based**, and **feedback-oriented** environments.
I love traveling, music, and technology.

EDUCATION

Bachelor of Science (B.S.), Computer Hardware Engineering

Azad University (IAU)
2005 - 2010

EXPERIENCES

Senior Web Developer Consultant

Passionate People - Amsterdam, The Netherlands

February 2021 - Present

> Passionate People is a JavaScript consultancy in the Netherlands. I work as a senior consultant and here is a list of the clients I've worked with:

VodafoneZiggo (February 2021 - Present)

VodafoneZiggo is one of the largest telecommunication companies in the Netherlands. I've worked in a couple of teams in the Digital department.

Responsibilities and Achievements

- Worked in an Agile team using Scrum within the Spotify model.
- Worked in cross-functional teams closely with designers, developers, and product owners.
- Helped with onboarding new developers.
- Worked on migrating components to be compatible with new APIs.
- Developed and maintained an Atomic design system for AEM using Vue.js.
- Developed and maintained a SPA using React ecosystem.
- Developed and maintained REST APIs.
- Developed and maintained unit tests, integration tests, e2e tests, and visual regression tests.

Tools and Technologies

- HTML, CSS, SCSS, BEM, JavaScript, ES6+
- React, Redux, Vue.js, NestJS, TypeScript
- AEM (Adobe Experience Manager CMS), Adobe Target, HTL, CRXDE
- Enzyme, Testing Library, Jasmine, Karma, Jest, Cypress, Backstop, Uptrends
- Git, Bitbucket, GitLab, Docker
- Google Tag Manager (GTM), Google Analytics
